## Comments

(Set forth by above question #, if applicable. Use "Additional Comments" Sheet, if needed)

File #: 95-271029	•
#1. It cannot be determined from the documentation if the tests were performed in a scientifical	lly acceptable
manner.	
#2. The results are not adequately documented in the notes. The notes are not dated, are in pend	cil and not ink and
use abbreviations that are difficult to interpret (such as "M- dk dist, lt dist, lt indist" and "cut-ss	p" to describe
some of the characteristics of the hair).	
The characteristics of the victim's known head hair standard is not adequately described in the	notes.
A verification of the hair comparison by a second, qualified hair examiner should have been ob	
verification practice begain in 1986, according to Doug Deedrick.	
Review completed at: 11:15 AM (Time), 11/14/2000 (Date)	
Total time spent conducting review (to nearest 1/4 hour):  0.5 hour	
I hereby certify that I conducted this review in an independent, unbiased manner and that the res are fully documented on this report consisting of a total of3 pages.	ults of my review
